Correspondence Accepted:
Moved: Trevor Letchford **Seconded:** Bill Davies **Carried:**

Treasurers Report: Available on request for viewing from the Treasurer.
Moved: Peter Baldrey **Second:** Bill Davies **Carried:** Yes

CFI Report:
Michael Cuerden reminded members that you must have the correct rating for the model you fly, eg. Fixed Wing, Heli, Multi Rotor. Silver Wings or equivalent is the minimum requirement. The MAAA Instructor testing the member for wings must be rated for the same test.
Michael also expressed the clubs need for more Club Instructors. If the Instructing team cannot get any additional help the Club may have to refuse new members needing instruction.

General Business:
Perth R/C Heli Club's field is unflyable for approx 6 months due to road works. The club approached WAMASC to seek membership of WAMASC at a reduced cost so their members

could keep flying. After discussion, the committee decided not to offer any discount on WAMASC fees as they felt it would be unfair to the Perth R/C Heli Club members who paid full fees to join WAMASC. Secretary to reply.

COVID Tracing rules now apply. All members are required to sign in every time they visit the club whether they are flying or just visiting.

A sign in book will be situated on the first table as members enter the club rooms.

The Secretary to advise all members of these rules.

It has been pointed out that edges of the strips need attention, with a view to requesting a grant from AWA to assist in paying for this work Michael Cuerden offered to arrange some quotes.

The Treasure Eric Bevan explained the AWA Grants background and procedures to the members.

Meeting Closed: 10.10

Peter Baldrey

David Collett

Chairman

Secretary
