CFI Report:

Michael Cuerden advised members that there are nine students in various stage of flight training and not enough instructors to assist. Once again Michael asked for Club/MAAA instructors to help out.

Michael also raised the importance of following the safety rules and pointed out that we are all safety officers and to look after one another. Michael also reminded members, the club was closed to new members requiring training.

General Business:

The SafeAWA App is now in use at the field. All members are encouraged to use it.

Because of the recent incident with a electric motor accidentally starting in the pits, injuring a members hand, a revised set of Safety Procedures for starting electric motors was presented to members for their comment/approval. After all members present had read the new rules

the secretary David Collett moved the new safety rules be accepted and added to the WAMASC Operating Procedures and Safety Manual. Michael Cuerden seconded the motion, and it was passed by all members present.

A vote of thanks to Ian Rodgers for his ongoing work on repairing the water damage to the club rooms.

WAMASC First Aid officer John Kress will replace the missing First Aid boxes and fix them to the appropriate walls to help reduce the temptation of theft.

Jet weekend to held on the 1st and 2nd of May 2021- Afternoons only. Secretary to apply for additional height clearance. Michael Sonnerman will be responsible for the operations on both days.

Club transmitters being used in training must be signed in/out by the instructor using the transmitter.

Meeting Closed: 10.00
